Briefly introduce our product and the difficulties we've faced these times...

Then ask about,

1. How much time will you like to spend in learning new things after work?
2. During work, if you have faced any difficulties that needs you to learn something new, what kind of those difficulties are and what will you do? Is there anything progressible during the learning process?
3. Which kind of learning ways do you prefer? Buying lessons, youtube, or else? Why?
4. Will you like to share your learnings or experiences with other strangers? Why?
5. If yes, will you want to spend time with your listeners and answer their questions? What's the difference between 'they ask you questions through personal messages' or 'they ask questions through discussion field and everybody can share their ideas'? And which one do you prefer?
6. Being an consultant, what makes you feel most fulfilled? What would you most like to see in a consultation?

1. 你願意在工作之餘花多少時間學習新事物？
2. 在工作中，如果你遇到了需要你學習新東西的困難，這些困難是什麼，你會怎麼做？在學習過程中，有沒有什麼地方是你覺得可以改進的？
3. 你喜歡哪種學習方式？購買課程，Youtube，還是其他？為什麼？
4. 你願意與其他陌生人分享你的學習成果或經驗嗎？為什麼？
5. 如果是的話，你願意花時間回答聽眾的問題嗎？他們「通過個人簡訊問你問題」和他們「通過討論區問問題，每個人都可以分享他們的想法」之間有什麼區別？你更喜歡哪一種？
6. 作為一名顧問，什麼讓你感到最充實？你最希望在諮詢中看到什麼？
7. 學長是蠻常往返母校的，仍對於母校大學、學弟妹有興趣或好奇的是什麼？
8. 如果重來一遍，你覺得對於一個大學生而言最需要培養什麼樣的素質？有哪些資源是你覺得應該具備而這個環境沒有提供？
